

## **Eighth Grade Map Project**

Students are asked to create a map of a certain period in U.S. history that they have studied or will be studying. Students must work in groups of three or four to make this project.

When presenting the project, the students must be able to describe how they made it and what materials they used.

Materials: Some of the materials that students can use is papier- mache, cloth, beans, rice, lentils, cereal, raisins, nuts, etc. It should be presented on poster board. The poster board must be in length about 26" or 28" and width about 14" or 15".

Students must include four or five photographs. **For due date check web calendar**
